INDEX

	CONTEXT AND CHALLENGE	CONTEXTS	SCIENTIFIC RESEARCH	BASIC KNOWLEDGE
1 **The organisation of the human body** P. 8	Organ transplantation **Challenge :** Podcast: Pieces that Fit **SDG 3**	**1.** What are human beings made of? **2.** Are all the cells in a person the same or different? **3.** Can we print organs for transplantation?	Where does the eukaryotic cell come from? **SDG 5**	**1.** Levels of organisation in living matter **2.** The cell: the unit of life **3.** Cellular functions **4.** Types of human cells and characteristics **5.** Tissues **6.** Organs **7.** Systems and organs **8.** The functions of human beings
2 **Human Nutrition** P. 38	Foods **Challenge :** A balanced and sustainable menu **SDG 2**, **SDG 12**	**1.** Which foods are balanced and sustainable? **2.** Are all foods always good for everyone? **3.** Is breathing a privilege? **SDG 3** **4.** Are they healthy foods or do they just look healthy? **SDG 3**	How do I calculate my daily energy expenditure?	**1.** Food and nutrients **2.** Diet **3.** Human nutrition **4.** The digestive system: from food to nutrients **5.** The respiratory system: oxygen uptake **6.** The circulatory system: distributing nutrients and oxygen **7.** The excretory system: removal of waste products
3 **Interaction function** P. 74	Drugs and accidents **Challenge :** Safety video to reduce road traffic accidents **SDG 3**	**1.** How do drugs affect the nervous system? **2.** What happens if the impulse is cut? **3.** What can be done to maintain good health?	How do different substances affect heart rate	**1.** The interaction function **2.** The nervous system: the control centre **3.** The endocrine system: the hormonal messenger **4.** The musculoskeletal system: the mover **5.** Factors that determine health **6.** Infectious diseases and immunity
4 **Human Reproduction** P. 112	Pregnancy **Challenge :** Leaflet on pregnancy **SDG 5**, **SDG 10**	**1.** Is demographic growth the same in all countries? **2.** Sooner or later?	Which topic related to sexuality interests you most?	**1.** The reproductive system **2.** The ovarian and menstrual cycle **3.** The transmission of life **4.** Diseases of the reproductive system **5.** Family planning
5 **The Earth, a dynamic planet** P. 136	Geological hazards **Challenge :** Invent a news story about a geological event **SDG 1**, **SDG 11**	**1.** Why is it not a good idea to break a stalactite? **2.** How was the Earth's core discovered? **3.** Does the terrain influence human construction?	Is the area where you live seismically active?	**1.** External geodynamics **2.** Processes that shape the landscape **3.** Hazards caused by external geological processes **4.** Internal geodynamics **5.** How the Earth's internal structure affects the planet **6** Representation of the relief **7.** Geological cross-sections **8.** Geological time
6 **The Earth, a threatened paradise** P. 174	The rise in global temperature **Challenge:** School Plan to Mitigate Climate Change **SDG 13**, **SDG 15**	**1.** Can any living being live anywhere? **2.** In what way does human activity affect ecosystems? **3.** How does climate change affect us?	How can we calculate our ecological footprint? **SDG 11**, **SDG 12**	**1.** Elements of the ecosystem **2.** Matter and energy in an ecosystem **3.** Terrestrial ecosystems **4.** Aquatic ecosystems **5.** Impact of human activity on the atmosphere **6.** Climate emergency **7.** The fight against climate change

SCIENCES IN CONTEXT		
1. Access to safe drinking water **SDG 6** **2.** Water in the body **3.** Are we stardust? **4.** Inventing cells to treat diseases **SDG 9** **5.** The human body is only ten years old **6.** The body's response to exercise	**7.** Tissue donation **8.** Planetary health **SDG 3** **9.** A new organ **10.** Salt preservation **11.** Cloning stem cells **12.** Muscles and their energy sources	**13.** We are what we eat **14.** The importance of bone marrow **15.** When should you add salt to soup? **16.** How do drugs work? **SDG 3**
1. What do we choose for a snack? **2.** Your ecological footprint **3.** Do you have a sustainable diet? **4.** Product labels **5.** Breast milk **6.** A rare omelette **7.** Lydia's testimony **SDG 3** **8.** Ricotta Cheese	**9.** Are sugar-free foods suitable for diabetics? **SDG 3** **10.** What is the price of tobacco? **SDG 3** **11.** Classroom ventilation **12.** COVID-19 and young people **13.** Unhealthy habits **SDG 3** **14.** What does a defibrillator do? **15.** Kidney stones are becoming more common	**16.** The haemodialysis machine **17.** The microbiota **18.** They do science too **SDG 5** **19.** Watch out for the labels! **SDG 3** **20.** Will we eat insects? **SDG 2** **21.** Asbestos disease **SDG 11**
1. Reaction time **2.** Blood alcohol concentration **3.** Optical illusions **4.** Drinks to counteract spiciness **5.** Phantom pain **6.** The case of the athlete Simone Biles **7.** Drinking alcohol and blood sugar **8.** Foot size **9.** Comparison of skeletons	**10.** Relieving mobility problems **11.** Sports drinks **12.** A spinal cord injury **13.** Why a sprinter's body is different from a marathon runner's? **14.** ~~El~~The influenza virus **SDG 3** **15.** Multidrug-resistant bacteria **16.** Vaccines eradicate disease **SDG 5**	**17.** Gene therapy **18.** Road traffic accidents are the leading cause of spinal cord injuries **19.** Alexia Putellas's serious injury **20.** Causes of death **21.** The mokey and the drug **22.** Evolution of COVID-19 cases **SDG 10** **23.** Anar a classe **24.** What is stress?
1. The common origin of the external genitalia **2.** Physical appearance and attraction **3.** The effects of the menstrual cycle on performance **SDG 5** **4.** Hilde Mangold's research **5.** The frog test	**6.** 'Twins are tripling in Catalonia' **7.** Cloning **8.** Honest information for good sexual health **9.** The Internet: the wrong solution **10.** Gender-based violence **SDG 5**, **SDG 16**	**11.** Pioneer Doctor **SDG 5** **12.** Family planning and false myths **13.** The hymen **SDG 5** **14.** Foetal alcohol spectrum syndrome
1. Grazalema and its aquifer **2.** The aquifers of the Costa Brava **3.** Study of a mountain **4.** Interpreting landscapes **5.** Does an earthquake affect everyone equally? **6.** The 2024 DANA in the Valencian Community **7.** What drills best	**8.** Building in tectonically active areas **9.** Where has orogenesis occurred? **10.** The eruption of the Cumbre Vieja volcano **11.** How are earthquakes measured? **12.** It doesn't affect everyone equally **13.** Can an island disappear? **14.** Saving wild birds **SDG 15**	**15.** Ornamental stones **16.** The study of fossils **17.** Filling reservoirs **18.** The Montserrat massif **19.** Africa is breaking apart **20.** Risk factors in flooding **SDG 9** **21.** Study of a landscape **SDG 6**
1. Bioindicators **2.** Lynxes and their diet **3.** Keystone species **SDG 14** **4.** Bees and crops **5.** Land use and climate change	**6.** Silent Spring **7.** The cod fishery SDG 14 **SDG 14** **8.** Gas concentrations in the city **SDG 11** **9.** Youth activism **SDG 13** **10.** Asian hornet: silent devastation	**11.** Simulating a dynamic ecosystem **12.** Jellyfish on the beach **SDG 14** **13.** All voices matter **14.** Rainfall prediction **15.** Urban green spaces **SDG 11**

Projects Quarterly P. 204	**1.** Why do we grow? **SDG 3**	Nutrition function
	2. Can we be lifesavers? **SDG 3, SDG 9**	Human anatomy and physiology / Respiration, excretion and liver functions / The immune system
	3. Plan the best journey! **SDG 3**	Disease and health / Medicines

Appendices P. 210	The optical microscope / The science laboratory
